## Project Work:

### 1. Chat-App

**Description:** Chat-App is a versatile and user-friendly messaging platform designed to facilitate seamless communication among users. It supports real-time text messaging, multimedia sharing, and integrates with various social media platforms to provide a comprehensive communication solution. The app aims to offer a secure, reliable, and intuitive user experience across multiple devices.

**Technology:** React js, Socket.io, Nodejs, Redux-Toolkit, MongoDB, bcryptjs, express, nodemon

**Programming Language:** HTML, CSS , JavaScript

**GitHub Link:** <https://github.com/asif-ansari10/Chat-App>

### 2. Role-Based Issue Tracker

**Description:** Role-Based Issue Tracker | MERN Stack

Built a full-stack issue tracking web app with secure role-based access (Admin & Developer), issue assignment, and activity tracking. Implemented JWT authentication, invite-based user onboarding, and responsive UI with light/dark mode. Deployed using Docker and Render.

**Technology:** React.js, Node.js, Express.js, MongoDB, Axios, JWT, bcrypt, Docker

**Programming Language:** HTML, CSS , JavaScript.

**GitHub Link:** <https://github.com/asif-ansari10/IssueTracker>

**Live Demo:** <https://issuetracker-client.onrender.com>

### 3. E-Commerce Website

**Description:** An intuitive and responsive e-commerce platform designed to deliver a smooth online shopping experience. The website features product browsing, cart management, user authentication, and secure order processing. With a modern UI and robust backend architecture, it ensures fast performance, scalability, and maintainability.

**Technology:** React.js, React Router, Spring Boot, Spring Security, MySQL, Razorpay

**Programming Language:** HTML, CSS , JavaScript, Java

**GitHub Link:** <https://github.com/asif-ansari10/E-Commerce-Website>

## Certification :

- Full Stack Development
- Data Structures from Coursera
- JAVA Backend Development
- Generative AI - Outskill
- Oracle Certified Foundations Associate, Developer, DevOps, Architect, AI Foundations Associate – Oracle

## Training/ Internship:

- **Internship Title:** Software Developer Intern July 2024 – September 2024
- **Company:** Unified Mentor Private Limited
  
- **Internship Title:** Full Stack Developer Intern October 2025 – November 2025
- **Company:** Pandora Software

## Experience:

- **Job Title:** Full Stack Developer November 2025 – Present
- **Company:** The web Trix

## Personal Details:

- **Date of Birth:** 18 March 2003
- **Gender:** Male
